At the visit

How to use AOTM Tools in front of the owner. Pairs with your In-Person Sales Kit (opener, demos, objections, follow-up).

> *"You're not showing software. You're the neighbor who noticed the phone ringing out."*

The 15-minute visit

WHEN	WHAT YOU DO	ON YOUR PHONE
1 Before	Open the lead. Read **Before you walk in**: the first door and the opener line written for this business.	Leads → the business
2 Hello	Your 60-second opener from the Sales Kit. Ask for five minutes.	Phone in your pocket
3 Check	The 5-minute Online Check on *their* phone: search what they sell + their town on Google Maps. Let them see it themselves.	Their phone, not yours
4 Talk	Ask the Match questions as a conversation: "How do people book with you?", "What happens when you can't pick up?". Tap answers as they talk. Skip what you don't know.	Match (screen toward you)
5 Show	Turn the phone around on the result: **Yes, we can help** + **Where to start**. Tap the first tool and do its demo. Use **Say it like this**.	Match result (OK to show)
6 Price	"Setup is from $X, then from $450 a month to keep it running." If they lean in, **Quote this** and send the PDF right there, by text or email.	Quote → Save & get PDF
7 Ask	Ask for the yes (Sales Kit, page 7). If it's "let me think", agree on a date.	Lead → stage + next action
8 After	In the car: stage, one line of notes, next action and date. Follow up day 2, 7 and 14.	Lead → Save changes

What the owner may see, and what they shouldn't

FINE TO SHOW	KEEP TO YOURSELF
Match result and tools · Quote screen · the PDF · your visit route	Today, Clients, Invoices, Settlement, Settings, anything marked **Internal**, and other businesses' names in Leads

Tip: before turning the phone, make sure you're on the Match result or the Quote.

Words that work

INSTEAD OF…	SAY…
automation, AI voice agent	an assistant that answers the phone when you can’t
package, SaaS, platform	a monthly plan; we handle it
CRM, email marketing	your customer list; a note to people who asked for it
onboarding	we set it up with you, about an hour

If they ask who builds it: “our operations and technology team.” Keep it there; they deal only with you.

Three quick answers

- **“Not a good time.”** Set the next action on the lead (“Tue 3 pm”) and leave the card.
- **Health or medical practice.** The app says **Not a fit**. Use its polite line and ask for an introduction to a salon, shop or inn nearby.
- **“Can you do just one thing?”** Yes: **Pick tools** in Quote. Setup only, no plan needed for most tools; the ones that run on a plan are marked.
